VIEW MY PORTFOLIO [HERE](#)

(B. 1994, UK)

PROFILE

I am a multipotentialite experimenting in the mediums of art, music, creative writing, and photography. I explore the creation of art through a lens of curiosity, self discovery, and promoting positive change in the world. I am hard working, dedicated, and adaptable. I hope to be an influential artist integral to the next major art movement or subculture.

ARTISTIC SKILLS

Capable of composing and producing works of music that are relevant to modern audiovisual productions. In some cases, these works fulfil the criteria of a client brief, leading to a successful synchronisation placement. This is evidenced by having independent music agreements with **Norfolk Music Publishing** and **CineVision Music**, and successfully placing one of my works in a documentary titled **Serena Williams: On Her Terms**.

Capable of writing, recording, and performing various genres of original music across solo and ensemble projects. This is evidenced by the release of **Echoes** (ambient electronic), and my involvement within **Crutch For Hire** to release two singles titled **Yellow Brain** (alternative rock) and **The Hand That Feeds (Live)** (alternative metal).

Capable of writing, formatting, editing, and producing books that are suitable for distribution (both print and eBook formats) using industry standard software. This is evidenced by the release of **Poetry for the Blind** and the feedback received through reviews, and the number of copies sold at present. This book was created using software such as **Adobe InDesign**, **Sigil**, and **Calibre**.

Capable of creating works of art that are presented and finished professionally, with a quality deemed high enough to be included in an art exhibition. This is evidenced by four pieces of my artwork being accepted and exhibited as part of the **CASE: Coventry Art Societies Exhibition** in 2024.
